  - Vietnamese (Native)
- **Soft Skills**
  - Empathy
  - Problem-Solving
  - Independence
  - Structure

ABOUT ME

Frontend Developer with hands-on experience in React, JavaScript, and TailwindCSS. I have delivered onboarding flows, event pages, and community-facing projects from concept to production. I thrive in cross-functional teams, combining detail-orientation with a passion for creating intuitive user experiences.

WORK EXPERIENCE

Studiz *(SaaS Startup, Denmark)* — 12/2023 - 07/2024

Frontend Developer Intern

- Collaborated with lead developer and UX/UI design team to build and deploy features that improved the first-time user experience: new User Onboarding Flow with smooth swipe navigation, pop-up alert modal and Event Page
- Gained hands-on experience in agile workflows, feature testing, and user-centric development
- Using ***Ionic***, ***Angular***

RMIT University Vietnam — 2019 - 2022

General Administration Officer

- Coordinated international training programs for 37+ law enforcement officers per course, ensuring smooth logistics and a positive participant experience. Consistently received praise from course facilitators and participants for professionalism, punctuality, and ability to provide quick, effective responses to unexpected circumstances.
- Managed student service requests via SRS/STS systems, fulfilling 100% of requests within deadlines and maintaining high user satisfaction.
- Facilitated cross-department communication and reporting, achieving 100% on-time delivery and contributing to efficient operations and stakeholder trust.

PROJECT

Active Citizenship Quiz — 03/2025 - now

Frontend Developer

- Built an interactive web app that helps users prepare for the Danish citizenship test by practicing quizzes from real exam questions
- Designed for usability and performance using ***React***, ***TypeScript***, ***TailwindCSS***

Linder — 10/2024 - 12/2024

Project Manager & Frontend Developer

- Designed and implemented a matchmaking web app (LinkedIn + Tinder concept) as a team project at ReDI School
- Focused on frontend logic, responsive layouts, and user interactions
- Using ***React***, ***JavaScript***, ***TailwindCSS***
